We look forward to seeing you there!

Community Prevention Workshop Series: Film Screening on January 31

Redwood City 2020, in partnership with the Redwood City Public Library, will screen the acclaimed documentary "Unnatural Causes: Is Inequality Making Us Sick?" on Wednesday **January 31 from 6:00pm-8:00pm** in the Community Room of the Redwood City Public Library (1044 Middlefield Rd, Redwood City). The documentarians crisscrossed the nation uncovering new findings that suggest that there is

much more to our health than bad habits, health care, or unlucky genes. The circumstances in which we are born, live, and work can actually get under our skin and disrupt our physiology as much as germs and viruses.

[This film screening](#) is part of the Redwood City 2020 Alcohol and Other Drugs Prevention Partnership's Community Prevention Workshop Series. The workshops, hosted in diverse venues in Redwood City and North Fair Oaks, seek both to open and deepen the dialogue about environmental factors that challenge the health of our residents. For more information about upcoming workshops (or to host one at your organization's site), please contact [Gregg Zaire](#).
