Redwood City 2020 Tuesday Tidbits

Inside this edition:

Sequoia High School's Dream Club Fundraiser and Safe Routes to School Infrastructure

Attend the 9th Annual Dream Club Fundraiser

In partnership with the Dream Club of Sequoia High School and the Immigrant Youth Action Team, Redwood City 2020 cordially invites you to the 9th annual Making Dreams Come True dinner! The Dream Club was founded to raise awareness about the challenges faced by undocumented youth and to build a community of belonging and support, regardless of immigration status.

The Dream Club dinner will be an opportunity to learn about the hurdles and strengths of the undocumented youth community - and will serve as an event to raise scholarship money for students in the Dream Club to attend college. At the event, Dream Club students will share their stories and photographer JR featuring the eyes of Sequoia Alumni Mayra Diaz.

The Making Dreams Come True dinner will be held on **Friday, November 16 at Sequoia High School Gym 1 from 6pm-8:30pm**. All proceeds will go to the Dream Club Scholarship Fund. English and Spanish interpretation will be available. Tickets are available for purchase through the following link: <https://squareup.com/store/sequoiabs>.

Tickets are \$15 for regular admission or reserve a table seating eight for \$125.

We hope to see you there!

Infrastructure Projects Improve Safety Near Schools

The City of Redwood City is moving forward with several infrastructure

projects around schools in the Redwood City School District (RCSD). One of these projects, the Safe Routes to School Implementation project, is nearing completion at several crosswalks and intersections adjacent to five schools: Adelante, John Gill, Hawes, Roy Cloud, and Roosevelt. These improvements were planned after Redwood City 2020's Safe Routes to School program, the City, the RCSD, and

other stakeholders collaborated on "walk audits" for each of these schools. Walk audits are reports that help identify priority projects to be implemented around schools.

In addition to the improvements around the five schools listed above, the City of Redwood City has recently finalized an agreement to construct improvements near Kennedy Middle School that includes the intersection of Alameda de las Pulgas and Goodwin Avenue. This project was also catalyzed by a walk audit completed for the school back in 2013.

Beyond these two projects, there are several other infrastructure projects in the works, with funding already granted for improvements near Hoover, Taft, and Fair Oaks Community Schools as well as the McKinley/North Star campus. A special thanks to our city and county partners for their continual efforts to improve the conditions for students and families walking and biking in the Redwood City School District.
