## Redwood City 2020 Tuesday Tidbits

Inside this edition:  
Supporting the Family Harvest at Fair Oaks Community Center

### Supporting the Family Harvest at Fair Oaks Community Center

On June 12th, Redwood City 2020 staff volunteered at the Second Harvest Food Bank Family Harvest hosted by Fair Oaks Community Center. Through the Family Harvest program, the Fair Oaks Community Center provides food to the low-income residents of Redwood City, unincorporated North Fair Oaks, Woodside, Portola Valley and Atherton. Their goal is to give each family that is served a helping hand by providing them with access to adequate nutrition.

This month's food distribution served approximately 280 families who were in need. All families left with the assurance of being able to provide their household members with nutritious meals.

Redwood City 2020 staff are grateful to our partners who continue to serve our community members through these uncertain times and look forward to continuing supporting them in doing so. If you or someone you know is need of food, a list of food access resources in the Bay Area is available [HERE](#) under the "Food Pantries and Meal Assistance Tab." Also, consider reaching out to local non-profits for more connections to local resources that include food access.
